

OREGON SCIENCE OLYMPIAD

Nov - Dec 2024 Update

Considering sponsoring an event this Giving Tuesday and holiday season. It's also a great time of year to register a team, look for invitationals, & review our draft schedule. If you have questions about anything, please contact ashley.dasilva@lebanon.k12.or.us

Consider Sponsoring an Event.

This Giving Tuesday and holiday season, consider helping out for our state organization. With donations, we can purchase supplies for high-quality events at the March 16, 2025 tournament.

<https://oregonscienceolympiad.org/product-category/event-sponsorship/>

While teams pay dues to be members of the Science Olympiad program in Oregon, most of those funds support the national organization creating the events.

Register Your Team.

Students participate in Science Olympiad by team. Each team will need to [register](#) with a school-based coach (teacher or other staff member). After registration, please go to "[shop](#)" for the team fee payment options.

We also have some tips available at <https://oregonscienceolympiad.org/start-a-team/>.

Our registration deadline is January 31, 2025.

Look for Invitationals.

Both online and in-person Invitationals are a wonderful way to get practice for your team.

Here is a link to a list of invitationals compiled by our national organization: <https://soinc.org/play/invitationals>

We also have a B-division online invitational that people are planning as we speak. We'll send out more information as soon as it is available.

View our Draft Schedules.

Here are our draft event schedules: [B division](#) and [C division](#)
We do not anticipate changes to the times.

Our Draft Schedules follow the same event sequence as the National Tournament schedule posted in the Event Rules.

Final schedules will be posted with building and room numbers in February, when the number of teams in each division is known.

Join Some Student-Based Opportunities.

Surya Panyam, a former Jesuit Science Olympiad participant, has created a Discord for Oregon Science Olympiad team members! Note: this is a revised link.

Valid Invitation Link: <https://discord.gg/Qh7zdzQd>

He's also made some [tips about the roles of team captains & coaches](#) that could be useful to new teams.

Find Extra Resources from our National Organization!

The national Science Olympiad organization wanted me to pass on an invitation to all C Division students for the Yale Young Global Scholars, <https://globalscholars.yale.edu/>

Every month, MySO offers lesson plans, practice tests, and note-taking resources. There are also mid-month workshops with real scientists and engineers.
