OREGON SCIENCE OLYMPIAD

March 2026 Update

Here are some tournament reminders -- excited to see many of you soon! If you have questions about any of these things, please let me know at oregonscienceolympiad@gmail.com. -- Ashley da Silva, State Director

View the Schedule for our March 14 Tournament.

Here is our schedule for the State Tournament on Saturday, March 14, at University of Portland. We are using a block schedule which divides the C division teams based on even & odd team numbers.

New: Room dimensions for Helicopters! 25 feet tall and 24 x 39 feet of floor space.

Room numbers are listed for both competition rooms and team rooms. There are also maps, information about food, and UP policies.

Volunteer to Help Out.

We are still looking for a few more volunteers to help out at our March 14 State Tournament. Here's a link to sign up: https://www.signupgenius.com/go/10C044EAAAB2EA2F9C70-61748102-state#/

We need test proctors to watch over students as they do written challenges and engineering event volunteers to measure and time things.

Parents of middle school (B Division) students can help out with high school (C Division) events and vice versa.

View the Build Event Signup

Here is a live link to the Build Event Sign-Up Schedule. Coaches can sign up for Build Events using a document shared to them in late January. Teams will be able to sign up until all tournament and parent forms are done.

If your team actually has all forms complete, but you have not received access to request build event times within three days, please e-mail oregonscienceolympiad@gmail.com and explain your situation. We would like everyone to be able to sign up prior to the State Tournament!

Finish Tournament Paperwork.

In order to compete, teams need to complete two team-level forms: the Final Roster and the Ethics Pledge. Teams which have a parent as head coach have an additional form that needs to be signed by the school.

This form contains links to all team-level documents, as well as a place for team coaches to turn documents in when done.

Complete the Parent Forms.

Due to changing legal & insurance requirements from University of Portland, competitors cannot be on campus without a completed parent form.

Here is the B Division Parent Form.

Here is the C Division Parent Form.

Coaches received these end-January.

Register for Engineering CAD.

The Engineering CAD Event for the C Division requires an OnShape account. Here is a Google Form that the Event Supervisor for Engineering CAD just made.

https://forms.gle/16hYSPALRG5KStHZ7

We recommend students use personal vs school e-mail accounts due to access limitations placed by some districts.
